**Professional Experience**

**Green Life Hydroponics (Freelance)**

Website Developer/ Designer (Nov 2021 - Sep 2022)  
Peoria, AZ

Green Life Hydroponics needed an entire rebrand. While taking them on as a client, I was able develop their logo, branding and most importantly, their website. They came to me with over 3000 products that needed to be digitally converted to an e-commerce platform. Alongside the product display, I was able to set up real time syncing of orders and inventory to their QuickBooks Point of Sale system.

**GoDaddy Inc**

WordPress Developer (Feb 2017 - Jan 2021)  
Scottsdale, AZ

During my time at GoDaddy, I learned the inner workings of WordPress and how to further my website design skills. Incorporating the black and white rules of code into the vast principles of design led to compositions with more intention. Also working alongside the UX team, building on the ability to problem solve on a larger scale; providing tangible results to visual solutions.

**R Squared Print and Advertising**

Design Intern (Apr 2015 - Sep 2016)  
Phoenix, AZ  
480.991.7780

Working with R Squared sharpened my skills as a designer and taught me how to manage multiple clients at once. I was assigned many tasks and my ability to pick up new skills, quickly and efficiently, was challenged immensely. An array of website design/development to product shots was covered on a day to day basis.

**Education**

**CareerFoundry**

Online UX Course  
Additional credits to  
Masters Degree
